13.00 p.m.		Workshop*: Learning and working as a professional at the SR-IPLW; an exciting challenge!

***IMPORTANT NOTICE**

Focus of the workshop on day 1 will be more towards education in higher educational institutes; and for day 2, towards professionals in clinical practice.

Day 1 WORKSHOP

How to facilitate interprofessional learning in higher education?

INPRO hosts: Anita Kidritsch (Austria, St. Poelten) and Claudia Zimmel (Austria, “Moorheilbad Harbach”)

This workshop addresses mainly lecturers in higher education who train students and/or professionals in continuing education. The aim is to support you when designing interprofessional, person-centred education.

Are you looking for inspiration on interprofessional education?

Co-funded by the
Erasmus+ Programme
of the European Union

Do you already have a plan in mind, but are not sure which methods to use?

Have you already established interprofessional education, but are unsure about the impact it has on the people involved?

This workshop can serve you to exchange with others and explore how the findings from INPRO may assist you!

Day 2 WORKSHOP

Learning and Working as a Professional at the SR-IPLW; an exciting challenge!

INPRO hosts: Jantje Schuiling & Tinke van der Schaaf (The Netherlands, Rehabilitation Center “Revalidatie Friesland”)

In this workshop various central topics of working and learning at an Interprofessional Learning Ward are discussed. What does ‘person centred care’ mean in in-patient rehabilitation care? How do you work as an expert in shared domains? What does it mean when students are in the lead at the SR-IPLW? How do you coach students and act as advocacy of Interprofessional collaborators? Professionals from Occupational Therapy and Physical Therapy share their experiences on these topics and want to learn from other experts in clinical practice. So, join this workshop and learn together from and with each other!
