

## PROUD INPRO MEMBER

### Wrap up of the INPRO Final Seminar and Field Visit

#### CLOSURE

After 3 years of a rewarding interprofessional, international and collaborative INPRO- Project Consortium, we are very proud to **show our work and share our results and materials!** This can only be presented in an **international interprofessional way** – therefore, this last Blog after three years features the work of the whole INPRO consortium!

#### PROUD Network

Reflecting on the last three years, we take pride in the robust collaboration within our consortium comprising higher educational institutes and rehabilitation centers across four countries, along with our associated partners. Throughout this period, we experienced that our results, whether geared towards practitioners or lecturers, were consistently crafted through strong cooperation among all consortium members. Patients, educators, healthcare and social work professionals, and managers worked seamlessly as an unified team on this endeavor.

#### PROUD Results
