

## ALIGNING INTERPROFESSIONAL EDUCATION AND COLLABORATION IN PRACTICE

---

using promising regional experiences for international exchange

# A VIDEO OF A TEAM MEETING

St. Poelten University of Applied Sciences

Moorheilbad Harbach Gesundheits- & Rehabilitationszentrum, Austria

This video material was developed inspired by design thinking workshops between the INPRO project partners. There was a need for practical examples of ICF usage in practical settings for learning professionals or students.

Link to the video material (in German, with English subtitles): <https://www.youtube.com/watch?v=415JX0avgxQ>

This 12-minute video material is intended for rehabilitation workers and students as part of their training.

For example, the assignment could be given to summarise the discussed case in an ICF documentation sheet.

Also, role-play of own variations in native language could be applied, as well as be recorded for further use.

This was explored by German students after visiting Moorheilbad Harbach Health and Rehabilitation Centre, where they worked on paper-cases with the four actors from the presented video.

Variations for team meetings could be, e.g.:

- at rehabilitation onset,
- before dismissal,
- with the patient participating and
- as a family group conference.

## Authors

A. Kidritsch, physiotherapist, St. Poelten University of Applied Sciences, Austria

C. Freisleben-Teutscher, didactics, researcher, St. Poelten University of Applied Sciences, Austria

S. Schulner-Weiss, team leader department of therapy, Moorheilbad Harbach Gesundheits- & Rehabilitationszentrum, Austria

## Involved

Media technology student project group (Mohamed Shakauat Ahamed, Simon Reimoser, Leonie Schoenfeldinger, Georg-Christian Schiffer) and their coach (Max Reinhold)

Viktoria Magenschab, attorney of Moorheilbad Harbach,

Verena Hackl, physiotherapist, Iris Grünstäudl, dietitian, Sabine Preißinger, occupational therapist, Janina Wagner-Jaksic, clinical and health psychologist

## With the INPRO consortium:

- AP University of Applied Sciences and Arts Antwerp, Belgium
- Coronaria Rehabilitation and therapy services (Coronaria Contextia Ltd), Finland
- Hanze University of Applied Sciences, Groningen, The Netherlands
- Jamk University of Applied Sciences, Jyväskylä, Finland
- Moorheilbad Harbach Gesundheits- & Rehabilitationszentrum, Austria
- Rehabilitation Centre Revalidatie Friesland, The Netherlands
- St. Poelten University of Applied Sciences, Austria

To create this video, media technology students prepared with the project coordinator and a didactic expert a guide for interviews with the attorney and the team leader of Moorheilbad Harbach. The background, light and clothing were planned and consent sheets prepared. Aim of the interviews was to help the audience identify how person-centred, interprofessional collaboration based on ICF was used.

A storyboard for a 5 to 8 minute sequence was created in German. Aim was to show a typical team meeting process which uses ICF. It addresses a health need, assessment findings, aims and solutions. All of the four present health professions exchange on these. Again, the setting, angles and light of the recording was prepared. In addition, supplementary video material was identified and integrated. Further, the final credits, logos and disclaimer were prepared and agreed. The permission for the capture was obtained in advance and the postproduction of the final recording approved. Intro, outro, banner and English subtitles were added. The video was uploaded on YouTube with CC License and explaining text.
